Avaya and FatPipe Integrate SDN, SD-WAN Solutions

FatPipe Networks and Avaya integrated their data center software-defined networking (SDN) and software-defined WAN into a single solution. FatPipe integrated its SD-WAN hybrid networking products with Avaya's fabric-based SDN Fx architecture.

As the first fully integrated unified communications and networking infrastructure, Avaya SDN Fx combined with FatPipe's SD-WAN solutions help drive improved operating efficiencies that simplify IT operations and result in real cost savings,' said Sanch Datta, FatPipe's President and CTO, in a statement.
